

baby fever thermometer

babysafe®

..monitor your baby's body temperature when out & about

These thermometers provide added safety and reassurance to parents and carers, from the time a baby is born and through their early years, helping to ensure a childsafe environment.

This new range is manufactured in the UK and incorporates the latest liquid crystal technology, using a unique accurate and easy to read red moving thermometer scale.

Fever Thermometers

An easy to read, reusable and unbreakable thermometer which provides an accurate method for taking your baby's temperature. Particularly useful when you are away from the home, in the car or on holidays. Also enclosed is a flu symptom chart.

Accurate to 0.5C. Medical Products CE approved.
