

How to Use - Easy Read Fridge Thermometer Clip

Instructions:

Gently push the Fridge Thermometer clip on to the front edge of a lower shelf in your fridge. Choose the lowest shelf, above the vegetable tray at the bottom.

How to read the thermometer:

- If only a **Blue** segment can be seen, the temperature is Too Cold
- If **Green** is also visible, the temperature is Ideal
- If **Orange** is visible, it is getting Warmer and if any **Red** segments are visible, then it is Too Hot
